(Due: 31st January, 2024)

Project number	36
Project Title	<i>Personalized Offline Ads – Box Ads</i>
Document	<i>Project Plan</i>
Creation date	<i>28-01-2024</i>
Created By	<i>Karthikeya, Vivek, Sudhan, Praneeth, Kriti</i>
Client	<i>Praveen Reddy</i>

Brief problem statement

We need to develop a form which collects the users' interests. We then need to design an algorithm or use a pre-trained M.L model to match the products to the users based on the users' interests.

Create a website for admins, advertisement companies, logistic partners each having different dashboards with the client's requirements. Also develop some Q.R based tracking for tracking advertisements. (The statement may be modified based on refinement of requirements).
